

# JUSTRITE® The Basics

Our interlocking ribbed grid surface ensures precision stamping because all images line up perfectly. Choose from a selection of interchangeable fonts, borders and centers. Stamp designs have a matching interlocking rib which securely locks into place in the grid system on the stamper.

## Getting Started

- Assemble your stamping image by simply snapping your border into place by holding it on the mount with one finger as your other finger pushes the border into the border groove.
- Next, choose the center you want to coordinate with your border and snap it into place.
- Start at the bottom of the grid and gently press the rib into the groove, working your way to the top by moving your fingers up the image.
- JustRite's flexibility enables you to choose a predesigned center while customizing the outer border with your own message. Or use our predesigned border and create your own center message.
- Use our font collection to create custom stamping phrases for cards and scrapbooking.
- To clean your stamps use your favorite stamp cleaner or a baby wipe. Do not use solvent spray cleaner. Solvent cleaners will remove the finish from the wooden stamper.

## Create Your Own Word Border with Our Font Sets

Stamper Size	Font Size Compatibility with Border
1 3/16" Round	6 pt.
1 5/8" Round	6 pt. or 15 pt.
2" Round & Square	6 pt. or 15 pt.
2 3/8" Round	6 pt., 15 pt. or 25 pt.
3 1/4" Round	Border does not accept font
1 3/4" x 2 5/16" Oval	6 pt. or 15 pt.
2 1/4" x 3 1/16" Oval	Border does not accept font

Create your own word border on most of our stamp sizes

Use our Demi Phrases to create 1/2 the border and you create the other 1/2

Create your own custom address stamp
